

Three days on the 2026 edition, whose renumbering changes what an auditor comes to check: planning of changes is new, and clause 10 has been reshaped.

What you will be able to do

- Identify significant environmental aspects and impacts
- Apply the life cycle perspective without reducing it to a claim
- Keep compliance obligations current and evaluate them
- Pin down what the 2026 edition changes compared with 2015

Context

The 2026 edition renumbers the standard, and that is the worst possible case for anyone working from memory: planning of changes appears at 6.3, clause 10 changes shape, and a clause number that stayed the same may now point elsewhere. A system labelled 2026 over 2015 content manufactures a false conformity that nothing on screen reveals.

Who it is for

QSE managers, environmental officers

Important

Session built on ISO 14001:2026, the fourth edition, which cancels and replaces the 2015 edition and renumbers its clauses. The text of the standard is not supplied: it is purchased from ISO or IMANOR, and the session does not reproduce it. If your system is certified against the 2015 edition, bring its environmental analysis: the session covers the transition.

Prerequisites

No prerequisites. Knowledge of your activities and releases is enough.

Course programme

01. Context and scope

- Internal and external environmental issues
- Interested parties and compliance obligations
- System scope and activities covered

02. Environmental aspects and impacts

- Identifying aspects across every phase of activity
- Rating method and significance criteria
- Life cycle perspective: how far it reaches

03. Planning in the 2026 edition

- Risks and opportunities, now at 6.1.4
- Planning of actions, now at 6.1.5
- Planning of changes: clause 6.3, new

04. Operational control

- Operating criteria and control of outsourced processes
- Environmental requirements passed on to suppliers
- Emergency preparedness and response

05. Performance evaluation and improvement

- Monitoring, measurement, analysis and evaluation of compliance
- Internal audit and management review in the 2026 edition
- Clause 10: what it now contains, and what it no longer contains

What you receive

An HEMC training attendance certificate, the course materials and the templates used during the session.

Where and how

On site in Morocco and Africa, virtual classroom live with the trainer, bespoke in-house sessions wherever you operate.
